WINDOW, WALL OR PROJECTING SIGNS

Single Tenant: _____ Shopping Center: _____ Other: _____

Wall Sq. Footage: _____ Sign Face Sq. Footage: _____ Height of Sign: _____

In the B-1 and B-2 zoning districts, any establishment with windows on the first floor may display window signs covering not more than 25% of the window area.

The size of all wall signs for establishments located within the B-1, B-2, M-1, and M-2 zoning districts shall not exceed the lesser of 300 sq. ft. or 20% of the building wall to which the sign is attached.

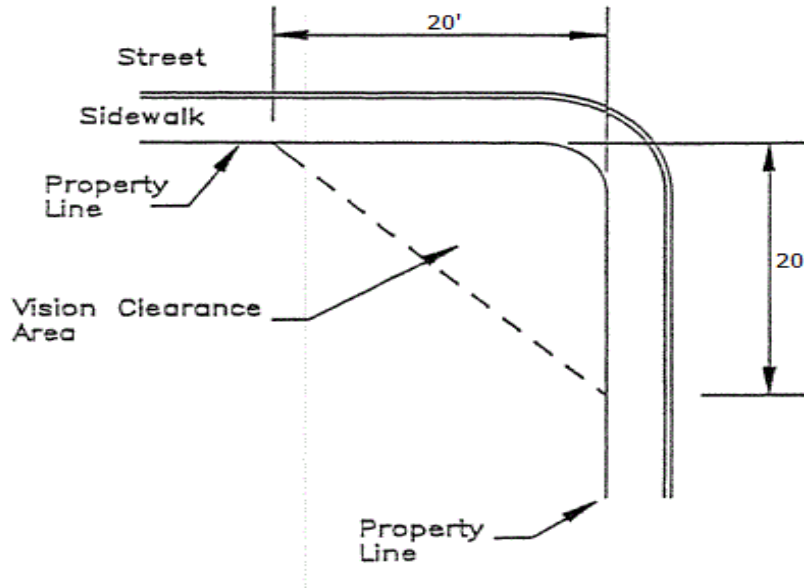

For an establishment that is the sole occupant of a principal building, signs are allowed on one wall.

In multi-tenant buildings, each establishment with an exterior entrance used by the general public is allowed to have signs on the wall with such entrance.

In multi-tenant buildings without exterior entrances used by the general public, signs are allowed on one wall.

No portion of any projecting sign shall be less than 8 ft. above the level of a sidewalk or other pedestrian thoroughfare, nor shall be less than 15 ft. above the level of a public driveway, alley or street.

LOCATION OF FREE STANDING SIGNS:
DISTANCE FROM INTERSECTION OF STREETS, ALLEYS OR DRIVEWAYS

No portion of a sign shall obscure visibility between a height of three (3) and ten (10) feet within an area defined by a triangle extending from a street intersection by a distance of 20 feet from the corner along the curblines of each street, with the third side formed by connecting the other two legs of the triangle. (See figure above)

In the interest of public safety the building inspector may exercise discretion in determining the required distance from curbs or property boundaries.
